With your group members you are to complete the following items based on the section you were assigned:

- Develop a detailed outline so your classmates have notes for the section
- Answer the Questions in your section review
- Make a poster based on your section-something fun, colorful, pictures, and informative :)

We will use the rest of class today and all day tomorrow. We will present our posters on Thursday in class. We will then have an open-note test on Friday using the notes your peers made for you. I will put all of your classmates outlines into one google doc for your use on the test as well as my powerpoint for chapter 3.
